

## PATHOLOGIST POSITION IN CENTRAL FLORIDA

**Central Florida Pathology Associates (CFPA), P.A.**, a single specialty group of fifteen pathologists based in Orlando, FL, is seeking one or more full-time pathologists to cover growing workload. Subspecialties currently represented in the group include hematology, transfusion medicine, cytopathology, dermatopathology, neuropathology, molecular pathology and microbiology. CFPA has been providing services to Florida Hospital (FH) Orlando (<http://www.floridahospital.com/>) for more than 30 years. A preeminent comprehensive healthcare facility primarily serving residents in Orange, Osceola and Seminole counties, FH Orlando now includes six other campuses, FH for Children and FH Cancer Institute with a total of 2,188 beds. Clinical centers of excellence include cardiovascular disease/surgery, lung/breast cancer care, gynecologic oncology, neuro-oncology/neurosurgery, robotic surgery, orthopedics, and organ transplantation. The setting presents a diverse spectrum of diagnostic specimens of varying complexities. In 2011 a total of 63,265 surgical pathology cases, 1,969 FNA/B cases, 1,400 bone marrow biopsies, 3,020 flow cytometry specimens, and about 40 autopsies were examined. Candidates must be AP/CP board certified/eligible, have excellent communication skills and demonstrate expertise in general surgical pathology and cytopathology, preferably with fellowship training and post-training practice experience. Subspecialty qualification in **dermatopathology** and **neuropathology** is desirable, and other subspecialists are welcome to apply. The position is created with the intention of progression to partnership. CFPA offers a competitive compensation package. Interested individuals may send their application (including current c.v. and a list of three references) and inquiries to Dr. M. Joe Ma (Recruitment Committee Chairman) at [Joe.Ma.MD@FLHosp.org](mailto:Joe.Ma.MD@FLHosp.org).
