The Department of Pathology at the University of Michigan Health System in Ann Arbor, Michigan is seeking an M.D. or M.D. Ph. D.

Academic Neuropathologist

The Department has a vibrant neuropathology section that includes four full-time faculty who provide care for patients at the University of Michigan Health System and elsewhere through our MLabs program. Our active neuropathology service accession over 1,300 cases annually and comprises about 700 surgical specimens, over 200 consultation cases, and 350 to 400 nerve and muscle biopsies. The autopsy and forensics service provides opportunities to examine over 200 brains annually. Our Neuropathology Fellowship was recently accredited for one fellow annually.

The successful candidate will actively participate in the academic activities of the department, including collaborative research projects and educational programs that include a neuropathology fellowship. Excellent diagnostic skills and board certification in Anatomic Pathology and Neuropathology are required. Preference will be given to those with subspecialty interest and expertise in interpretation of nerve and muscle biopsies and/or ophthalmic pathology.

The Department of Pathology at the University of Michigan comprises over 150 faculty with extramural research support totaling over $30 million dollars. Ann Arbor offers a quality of life and amenities found in few other comparably sized communities. In 2011 alone, Ann Arbor was ranked #2 on U.S. News and World Report's list of the 10 Most Educated Cities, #6 on Forbes Magazine's list of the 25 Best Cities for retirement, and #1 on Bizjournals.com's list of the Smartest Big Cities.

Appointment will be at the level of Assistant Professor, Associate Professor, or Professor (clinical track), commensurate with the candidate's level of experience, accomplishments, and track record of academic achievement. Interested candidates should submit a curriculum vitae, a cover letter detailing experience and future interests, and the names and addresses of five individuals who could provide letters of recommendation to:

Andrew Lieberman, M.D., Ph.D.
