- All of the above
- None of the above

### QUESTION 2

1 points

Save Answer

Adolescent at summer camp with fever, stiff neck, and skin petechiae.

- Poliomyelitis
- Eastern equine encephalitis
- Brain abscess in frontal lobe
- Escherichia coli

Nisseria meningitides

**QUESTION 3****1 points****Save Answer**

Encephalitis with cytoplasmic inclusions in Purkinje cells of cerebellum.

- Herpes simplex
- Toxoplasmosis
- Rabies
- Papova viruses
- Influenza virus

**QUESTION 4****1 points****Save Answer**

Hemorrhagic necrosis of temporal lobes and intranuclear inclusions in neurons and glial cells.

- Creutzfeldt-Jakob disease
- Herpes simplex virus (HSV-I) encephalitis
- Cryptococcal meningitis
- Acute pneumococcal meningitis
- Progressive multifocal leukoencephalopathy

**QUESTION 5****1 points****Save Answer**

In utero infection causes periventricular calcification and microcephaly

- Cytomegalovirus
- Subacute sclerosing panencephalitis
- Both
- Neither

**QUESTION 6****1 points****Save Answer**

Intracytoplasmic eosinophilic inclusions, in pyramidal neurons of Ammon's horn.

- Cryptococcal meningitis
- Rabies
- Subacute sclerosing panencephalitis (SSPE)
- Poliomyelitis
- Progressive multifocal leukoencephalopathy

**QUESTION 7****1 points****Save Answer**

Intranuclear inclusions  
Subacute sclerosing panencephalitis (SSPE)

- 
- Herpes simplex encephalitis
- Both
- Neither

**QUESTION 8****1 points****Save Answer**

Measles antigen in neurons and glial cells

- Subacute sclerosing panencephalitis (SSPE)
- Herpes simplex encephalitis
- Both
- Neither

**QUESTION 9****1 points****Save Answer**

Sequelae of leptomeningitis commonly include hydrocephalus ("communicating").

- True
- False

**QUESTION 10****1 points****Save Answer**

Which of the following is NOT true regarding Progressive Multifocal Leukoencephalopathy:

- Associated with immunocompromised host
- Etiologic agent is ubiquitous
- Mediates white matter disease
- Associated with intense inflammatory reaction
- Clinical symptoms result from destruction of myelin
