

Neuropathology and Neuro-oncology Faculty Positions

The Divisions of Pathology, Hematology/Oncology and Experimental Hematology at the Cincinnati Children's Hospital Research Foundation invite applications for three full-time faculty positions at the assistant, associate or full professor levels. The candidates may hold MD, PhD, DVM or MD/PhD degrees. Applicants for assistant professor positions must have the potential to develop an outstanding record of independent research. Applicants for senior positions must have a record of accomplishment. Applicants will be expected to develop and maintain externally funded innovative research programs that contribute to molecular understanding of and treatment for cancer of the nervous system. Areas of interest include development and analysis of models for treatment of neurofibromatosis, neuroblastoma, pediatric glioma or medulloblastoma. The Cincinnati Children's Hospital Research Foundation is ranked 2nd nationally in NIH funding for Pediatric Research Institutions. The successful applicant will contribute to an outstanding collaborative environment. Salary and start-up packages are commensurate with experience and qualifications. Applicants should submit the following as electronic files: curriculum vitae, statement of research interest, representative publications, and arrange for three references to be sent via email to Nancy Ratner, Professor of Pediatrics, c/o Kenya Lyles email Kenya.lyles@cchmc.org.

The Cincinnati Children's Hospital Medical Center is an Equal Opportunity Employer and encourages applications from women and minorities.
