Dr. Clayton A. Wiley, MD, Ph.D.  
Division Director of Neuropathology  
Department of Pathology, A506 UPMC Presbyterian  
200 Lothrop Street  
Pittsburgh, PA 15213

Dear Dr. Wiley:

The Department of Laboratory Medicine and Pathology at the University of Minnesota Medical School has a faculty position available in neuropathology at the rank of assistant to full professor (tenure-track, tenured or clinical scholar) depending on qualifications. This position will also be associated with the University of Minnesota's Institute for Translational Neuroscience and their Scholars Program. I am enclosing a copy of a journal advertisement that outlines the qualifications for the position.

If you know of any neuropathologists in your training program or elsewhere who may be interested in this position have them contact us at the address listed in the enclosed advertisement. Thank you for your help in this matter.

Sincerely yours,

H. Brent Clark, M.D., Ph.D.  
Professor of Laboratory Medicine and Pathology, and Neurology  
Director of Neuropathology

**UNIVERSITY OF MINNESOTA  
DEPARTMENT OF LABORATORY MEDICINE AND PATHOLOGY  
Institute for Translational Neuroscience  
NEUROPATHOLOGIST**

Faculty position is available in neuropathology at the rank of assistant to full professor (tenure-track or tenured) depending on qualifications. This position will also be associated with the University of Minnesota's Institute for Translational Neuroscience and their Scholars Program. Minimum requirements are M.D., board certified or board eligible in anatomic pathology and neuropathology, eligible for medical licensure in Minnesota. Key criteria are superlative scientific accomplishment and the promise of future research impact. Successful candidates must demonstrate the capability to establish vigorous, externally-funded research, a commitment to medical, graduate or undergraduate education, and leadership through vision and collaborative program development.

Translational Neuroscience Scholars will be affiliated with the Grossman Center for Memory Research and Care, the Wellstone Muscular Dystrophy Center, or the Center for Neurological Research. The Center has particular interest in candidates using animal models of dementia, movement disorders and neuromuscular disease as well as human degenerative diseases.

Applicant will also participate at some level in providing neuropathological services to the University of Minnesota Medical Center, Fairview and University affiliated hospitals. The Department has numerous opportunities for teaching medical students, residents and graduate students in multi-disciplinary areas.

Review of applications will commence immediately and continue until the position is filled. Applicants should send curriculum vitae, statement of research interests and intentions and three letters of reference to:
