

# NEUROPATHOLOGIST

The Department of Pathology and Laboratory Medicine at Children's Minnesota is seeking a **BC/BE pathologist with fellowship training in neuropathology**. Additional expertise or interest in pediatric pathology or another area of anatomic pathology is welcome.

## POSITION SUMMARY

Our service currently averages 50-75 cases annually, but is expected to grow significantly over the next 2-3 years following the recent opening of our new, state of the art, iMRI neurosurgical suite on the Minneapolis campus. Participation in neuropathology consultation for our active autopsy service would also be appreciated.

The Department of Pathology and Laboratory Medicine at Children's Minnesota receives approximately 10,000 surgical and cytology specimens and processes nearly 1 million laboratory tests per year. We have a very collegial and collaborative work environment and enjoy a close consultative relationship with all clinical and surgical services.

The group currently includes 6 pathologists, 2 physicians who oversee transfusion medicine services, a full-time pathologists' assistant and an excellent histology staff. Current subspecialty coverage includes pediatric pathology, clinical microbiology, molecular pathology and hematopathology.

## QUALIFICATIONS

- Must have an M.D., D.O. with a current Minnesota Medical License or the ability to obtain one
- BC/BE in **Anatomic Pathology** or **Anatomic and Clinical Pathology**
- BC/BE in **Neuropathology**
- Interest or experience in leadership in areas within the laboratory are welcome

**COMPENSATION/BENEFITS** We offer a competitive compensation package including a base salary with incentive pay opportunities. Benefits package includes health, dental, disability coverage, malpractice, retirement plans, solid vacation and CME package, relocation allowance and much more!

**CHILDREN'S MINNESOTA** is the 7<sup>th</sup> largest pediatric health system in the United States and the only health system in Minnesota to provide care exclusively to children, from before birth through young adulthood. As The Kids Experts™, Children's Minnesota is uniquely poised to serve the highly specialized health care needs of children and is regularly ranked by U.S. News & World Report as a top children's hospital.

Minneapolis/St. Paul, often referred to as the Twin Cities, is [the 16th largest metropolitan area](#) in the United States and consistently ranks as one of the top ten most livable places. The Twin Cities area offers a high quality of life, world class arts, [excellent school systems](#), an award-winning culinary scene, vibrant culture, professional and college sports, outstanding year round recreation with a bounty of lakes and a half dozen downhill ski areas located within a one hour drive of the Twin Cities.
